ABOUT ME

I am an Android Application Developer with 4+ years of experience. I am passionate about building innovative and user-friendly apps. I helped many clients from different countries to solve a problem, build a product or grow existing project. I strongly believe that every app is a new opportunity to make a difference. I prefer to keep learning and continue challenging myself.

SKILLS

Programing languages :	Java, Kotlin, Python, C, C++, C#
Tools :	Android studio, Visual studio, Github
Database :	MySQL, SQLite
Others :	MVVM, RESTful APIs, Jetpack Compose

PROFESSIONAL EXPERIENCE

Freelancing   July 2021 to Current
Android Application Developer

Successfully completed multiple freelance projects, delivering high-quality Android applications within agreed timelines. I also created and launched own application on the Google Play Store, leveraging knowledge of the latest industry trends and best practices.

Key Achievements:
- Developed application for the **National Urban Livelihoods Mission (NULM)**, a government initiative aimed at alleviating urban poverty and enhancing livelihood opportunities for marginalized communities.
- Resolved bugs in **40+ apps** by debugging and troubleshooting the code.

RS Tech Softwares   Jan-2021 to June-2021
Android Application Developer

Worked on Transportation Tracking App (driver, supervisor and customer), Interprise App (owner, manager and developer) and Small Loan App (customer and admin).

JPC Technology   Jan-2018 to March-2018
Intern Android Application Developer

Build an android application of location based augmented reality. It allows users to explore their surroundings and find resturant near them.

EDUCATION

Bachelor of Technology in Computer Engineering   April - 2018
Dharmsinh Desai University, Nadiad, Gujarat.

ACTIVITIES

- **Google I\O Extended Surat**

  Delivered a speech on **"Simplify Android Development with Jetpack Compose"** during the **Google I/O extended event**. Engaged in lively discussions with fellow developers, creating a collaborative and knowledge sharing atmosphere.

- **Blogs**

  I actively contribute to the Android developer community by sharing knowledge and expertise through various articles and blog posts. Here are some of my blogs : **Medium**

MY GOALS

- I want to utilize my expertise as an Android Developer to contribute to the success and growth of the organization. I am dedicated to developing high-quality mobile applications that are user-friendly, intuitive, and provide a seamless experience for users.

- I want to make a positive impact on people's lives through my work by creating apps that really matter. My goal is to develop applications that solve real-life problems and bring value to users. By doing so, I hope to contribute to the progress of technology and make a difference in the world.
